Darlene M. Washington Creator and Host of Spiritually Intriguing – The Church Edition states, "The pastors that I have interviewed remain committed to their families, communities and spiritual life. They aim to help provide people with lack of spiritual guidance an opportunity to hear Godly ways of resolving issues via the show and/or by becoming a church member. The entire purpose of this effort is to enhance coping skills by offering spiritual knowledge in a creative and non-threatening matter."

Ms. Washington believes that this type of online accessibility has helped to relieve mental stress or intrigue about living in today's society. She states, "Mostly, the viewers enjoy the ease of receiving a personal opinion from the pastors involved in the program on any featured matter from the woes of NFL players, murderers, child abuse, sex, divorce, marriage and more. Having it on the internet makes this effort global! Depression can be from chemical imbalances, psychological abuse, derived from the way we think about things or more. We aim to take the way you think about things off the list of causes of depression."
